

Installation of Shadecloth structures

Ultra-Pro Shade cloth is designed to protect plants, nursery stock, people and farm livestock from effects of sunlight, heat, wind and ultra violet rays. Where adequate protection is not provided, productivity can be lost as a result of sensitive plants and livestock being burnt, heat stressed or chilled by wind. For installation procedures contact our Sales Department for the best method for you

Choice of Ultra-Pro shadecloth grades

Ultra-Pro shade fabrics are available in choice of shade factors, which include:

Very Light, Light, Medium and Heavy. The shade factor will determine the approximate amount of shade provided by the fabric. For commercial growers, Ultra-Pro shadecloth also has the effect of providing a more sheltered environment where heat and wind velocity can be cut down by the overhead shadecloth structure.

SHADECLOTH ULTRA-PRO VL

Very Light Knitted Shadecloth

Ultra-Pro VL is manufactured from UV stabilised HDPE Monofilament Yarn for long life and toughness. Ultra-Pro VL is available in 2.0m and 4.0m Widths and available in 50m or 100m rolls. Cut length requirements are available on request. Ultra-Pro VL is available in Green or White.

Ultra-Pro VL has a Shade factor of between 25-35% and is ideally suited for growing of seedlings and any other variety that only require minimal shade factor to reduce sun burn.

Special sized covers can be manufactured in house on request.

SHADECLOTH ULTRA-PRO LT

Light Knitted Shadecloth

Ultra-Pro LT is manufactured from UV stabilised HDPE Monofilament Yarn for long life and toughness. Ultra-Pro LT is available in 2.0m and 4.0m Widths and available in 50m or 100m rolls. Cut length requirements are available on request. Ultra-Pro LT is available in Green, Black or White.

Ultra-Pro LT has a Shade factor of between 50-60% and is ideally suited for growing of Orchids, Palms and for Nursery stock. Reduces sun burn and is also a very good wind screen and visual barrier in open area applications.

Special sized covers can be manufactured in house on request.
