

SR1 SAFETY FENCE

By Cosio Industries Ltd

Cosio SR1 safety fence is a low cost site fence. SR1 safety fence is ideal for construction sites, roading sites, sports events and anywhere temporary protection is required.

Installation guidelines;

Un-roll SR1 safety fence and cut to length required with sharp scissors or side cutters. Drive warratahs, Y-posts or stakes into the ground and use wire ties, electrical ties or other methods to attach the safety fence to the posts. If safety fence is to be used in public areas along with steel post ensure safety caps are fitted onto the steel posts to prevent injury.

Applications

- Civil construction
- Building and construction sites
- Events
- Temporary fencing
