Windbreak LT is a lightweight knitted windbreak, ideal for boundary fences and establishing young trees. Windbreak LT can also be used as a light shadecloth.

**Applications**
- Farm fences
- Boundary fences
- Seasonal planting
- Very light shadecloth

**Advantages**
- UV stabilised
- Button hole eyelets
- Economical

**Technical specs**
- Roll width - 1m, 2m
- Roll length - 50m, cut to length
- Weight - 110gsm, UV stabilised HDPE
- Wind porosity - 65%
- Shade factor - 30-35%
- Lifespan - 5 years or more depending on installation & UV exposure

Use Cosio Polyclips for a quick, simple installation, spaced apart 500mm. For higher wind areas we recommend 300mm between clips. For professional installations, shackles can be installed through the button hole eyelets or Cosio Industries can hem & drawcord the edges so a wire can be pulled through.
